

# WL100

An unlimited supply of fresh water always on tap.

The WL100 is an effective point of use cooler that connects directly to your building's water supply and purifies water upon dispense to provide an unlimited supply of the best in chilled, hot and ambient water. It offers ideal dispensing capacity for smaller offices and workgroups.

## Advanced Technology

The WL100 has two core technologies:

### Advanced Filtration

The best filtration for your local water conditions will be installed to provide you with the cleanest, and best tasting drinking water available.

### BioCote® Anti-Microbial

Plastic surfaces surrounding the dispensing area are infused with BioCote®.

\*For more information visit [www.biocote.com/home-us](http://www.biocote.com/home-us).

### Good for the Earth

Waterlogic coolers have been shown to reduce carbon footprint by up to 72% compared to bottled water coolers.\*

Bottleless water coolers reduce plastic bottle contribution to landfills.

The WL100 is ENERGY STAR certified.
